

## BLENHEIM PALACE GATES – OXFORD – UNITED KINGDOM

In August 2002, the gates of the **Blenheim Palace** were refurbished using **ZINGA** (as primer) and **ZINGALUFER** (as sealer).

*Note: The black vinyl paint finish was used to replicate the dull finish of original Victorian leaded paints.*

### Surface preparation:

SA 2,5 and RZ 50-70 µm

ZINGA 1 x 60 µm DFT

ZINGALUFER 2 x 80 µm DFT

Vinyl topcoat 1 x 80 µm DFT
