

SHIPS – UNITED KINGDOM

On the pictures you can see barges, owned by **Kingsground Narrow Boats**, that were protected with **ZINGA** in December 2003.

Zinganised boats done in June 2004

This is the fishing boat **SEASPRAY**, that was protected in 2000 with 2 coats of **ZINGA** and 2 coats of a white PU paint. The application was done by roller.

This tug boat, owned by **ITCHEN MARINE**, Southampton, was Zingaised and topcoated in September 2002 by the contractor J. Kirkaldy. In total 7 tug boats were protected with the same **ZINGA** system.

The motor vessel **COPIOUS** was grit-blasted, Zingaised and topcoated in 2001. The vessel struck a rock in July 2002 and came into the harbour with a 3 meter long scratch on the starboard gunwale. The scratch was bright silver (pure zinc) and the owners were very happy indeed to see no sign of rust anywhere.
