

Zinga on Commercial Vehicles

No. 2 Various

Above: The zingaised chassis of a cattle truck finished by McLarens of Irvine, Scotland

Above: The chassis with an automotive 2K polyurethane finish. Urine from the cattle damaged the old coating.

Above: A gritter body designed for salting the UK's roads. Blasted and zingaised and painted by Emtrade in Hull, UK.

Above: A truck chassis in Belgium by Lambrecht in Belgium

Above: Military vehicles use Zinga + acrylic camouflage

Above: Many wagons and coaches are coated with Zinga. The above wagon belongs to CITA in France.
